🗧 纋 Certificate Import Wizard

#### Welcome to the Certificate Import Wizard

This wizard helps you copy certificates, certificate trust lists, and certificate revocation lists from your disk to a certificate store.

A certificate, which is issued by a certification authority, is a confirmation of your identity and contains information used to protect data or to establish secure network connections. A certificate store is the system area where certificates are kept.

2. 點選下一步

Click next step

# 安全憑證-憑證存放位置 SSL-the storage of all certificate
